Learning and growth

To learn English

Geography

Economics

"I realized that programming is not for me. I am more on the business side, trying to understand the problem that technology will solve rather than developing the product."

United State of America

"I want to learn about business. I want to learn what makes a business successful, but also what makes people function."

France

"I am originally from France. Now I live in Dubai."

Montpellier

"I started my first company in the hospitality industry focused on restaurants."

Confort Zone

Passion from the beginning

Ireland

Dublin

job opportunity in digital communications for the healthcare industry.

COVID impact

"I realized that maybe I didn't want to spend my whole life in front of a screen."

Career transitions
Cultural change

"I still believe that when you are eighteen, it is a bit early to know what you want to do."
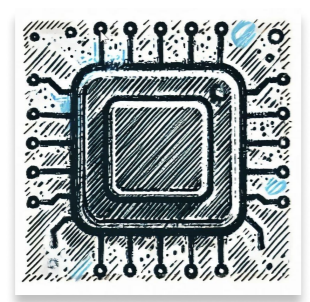

"The deal with my parents was that I first had to obtain a degree in France, and then maybe I could go."

computer science
Skills acquired in Math and Programming.

Dubai

United Arab Emirates

My focus is really on building teams.

Soft skills

Resilience

Problem-solving

Adaptability

Future projects

Recruiting innovation
Internal digital transformation
Artificial intelligence
Job market challenges

Face swap technology

Power

To embrace changes and adapt to that change.

Making boss's life easier

"What you need to do to succeed is something easy. The recipe is easy. It's, honestly, hard work."
